

Cash-flow

- ☐ Our monthly cash-flow is predictable and consistent
- ☐ We work around annual cash-flow and the same is linked solely with grants we have acquired
- ☐ We have cash-flow sight for a very short period - maybe 2 quarters; beyond that we have no idea on future cash-flow
- ☐ Lots of uncertainty over monthly cash-flow

☐☐ Our monthly cash-flow is predictable and consistent

“Highly developed: No difficulty in predicting cash-flow.

Reflection:

- No immediate response required as we do have cash-flow mapping done for the next ten months.
- Others -

Action:

- No action necessary.
- Others -

Notes for Development:

1. No difficulty in predicting cash-flow.
2. Cash-flow is consistent and generally predictable on a month by month basis, for the next twelve months.
3. Highly developed funding portfolio has been helping in controlling the cash flow as per expenditure plans.

☐☐ We work around annual cash-flow and the same is linked solely with grants we have acquired

“Developing: Have clear sight but may not always be accurate.

Reflection:

- No immediate response required as we do have cash-flow mapping done for the next few quarters months.
- Others -

Action:

- Park this task for next year and address immediate fund crutch issue.
- Others -

Notes for Development:

1. Have clear sight but may not always be accurate.
2. Cash-flow is linked to grant disbursement agreements and is generally known for the year.
3. Consider developing other income lines for mitigating any risks around cash-flow, or unexpected change in grant relationships.

☐☐ We have cash-flow sight for a very short period - maybe 2 quarters; beyond that we have no idea on future cash-flow

“ Poorly developed: Have cash-flow sight for a short period and is inadequate for financial prudence.

Reflection:

- Fundraising and organisation financing plan to be developed with the aid of FF level Financial guidance; simultaneous integration of this financing plan with fundraising plan is to be driven by CEO.
- Conduct a risk analysis for unpredictable cash-flow.
- Others

Action:

- Think of starting a few fundraising efforts specifically designed to influence predictability in cash-flow.

- Delegate cash-flow projection and analysis project.
- Others -

Notes for Development:

1. Have cash-flow sight for a short period and is inadequate for financial prudence.
2. Cash-flow situation is not in control mostly.
3. Consider developing other income lines for mitigating any risks around cash-flow.

☐☐ Lots of uncertainty over monthly cash-flow

“High risk: Does not have strong sight to cash-flow situation mostly.

Reflection:

- Cash-flow situation for the next twelve months to be studied and a risk mapping is to be done by Finance, with clear recommendation on preferred cash-flow based on planned expenditure, recurring or core costs etc.
- Fundraising and organisation financing plan to be developed with the aid of FF (or other external experts) level
- Financial guidance; simultaneous integration of this financing plan with fundraising plan is to be driven by CEO.
- Others -

Action:

- Delegate cash-flow projection and analysis project.
- Develop a financing strategy and plan post cash-flow analysis.
- Consult external financial specialist.
- Others -

Notes for Development:

1. Does not have strong sight to cash-flow situation mostly.
2. Cash-flow situation is hardly in control ever and it lead to high financial stress to the organisation.
3. Consider developing new income lines for mitigating any risks around cash-flow and its predictability.
